PROFILE

Senior iOS Engineer specializing in Mobile Architecture and System-Level Engineering, with **5+ years of professional experience in iOS development and 8+ years in software engineering overall**. Proven experience leading large migrations, stabilizing production systems, and designing scalable mobile architectures aligned with product and business goals. Acts as a technical partner for startups and companies across the USA.

PROFESSIONAL EXPERIENCE

Senior iOS Developer

04/2024 – present

McDonald's

- Led SwiftUI adoption, migrating critical UIKit components while maintaining production stability.
- Designed modern concurrency architecture using **Swift async/await**, improving responsiveness and reliability across core modules.
- Led **Swift 6 migration**, resolving thousands of concurrency warnings across modules and test suites.
- Implemented enterprise **accessibility compliance** (VoiceOver, Dynamic Type, semantic navigation) across revenue-critical flows.
- Architected scalable **background asset system** for country-based promotions and dynamic content delivery.

Senior iOS Engineer · Technical Lead (Architecture)

01/2025 – 03/2026

Reparanet - Contractor

- Designed and executed a **crisis recovery strategy**, reducing crash rate from ~90% to 0% in under 30 days and restoring product stability and user trust.
- Defined stabilization roadmap including **diagnostics, observability, architecture refactor, and phased delivery**.
- Architected **background geolocation system** with automated push notifications for zone entry/exit using CoreLocation and BackgroundTasks.
- Built **autonomous background processing system** persisting operational events even when the app is closed.
- Led UI modernization (**UIKit → SwiftUI**) and designed scalable architecture using **MVVM and Clean Architecture**.

Senior iOS Engineer · Technical Lead (Architecture)

04/2024 – 04/2025

Sweat Sonic-Fitness App - Contractor

- Led full UI modernization migrating **30+ screens from UIKit to SwiftUI** with pixel-perfect design accuracy.
- Designed modern concurrency architecture using **Swift async/await**, improving system stability and responsiveness.
- Architected high-performance caching system (**CoreData + memory layers**) improving app performance by **~60%**.
- Built media delivery pipeline using **AVPlayer, HLS streaming, and Core Animation** for interactive video training experiences.
- Implemented **CI/CD pipeline with Fastlane and GitFlow**, reducing deployment time by **~40%**.

Mobile Systems Architect · Technical Consultant — Top Rated Plus

06/2022 – 03/2026

Upwork - Freelancer

- Led complex system migrations (**Objective-C → Swift → SwiftUI**) modernizing legacy mobile platforms.
- Designed scalable **mobile architectures** for startups and scaleups.
- Provided technical consulting for **system recovery, modernization, and scalability**.
- Led **App Store delivery pipelines and production releases**, improving platform stability.
- Designed **accessibility compliance strategies** aligned with WCAG and European Accessibility Act (EAA).

Senior iOS Engineer · Technical Lead (Architecture)

06/2023 – 10/2025

braingapps - Contractor

- Led phased modernization strategy (**Objective-C** → **UIKit** → **SwiftUI**) while preserving production stability.
- Designed **accessibility-first architecture** compliant with European **WCAG standards**.
- Defined cross-platform accessibility strategy coordinating implementation with Android teams.
- Architected **secure payment infrastructure** supporting credit cards, PayPal, and bank transfers.
- Led full development lifecycle from **planning and architecture to deployment and production monitoring**.

iOS Developer

06/2022 – 04/2024

Bank Hipotecario - CODERIO

- Designed secure onboarding architecture for **financial flows** using MVVM and Coordinator pattern.
- Led modernization of banking infrastructure integrating **Firebase, Digital Identity SDKs, and analytics systems**.
- Defined **deployment and release processes** using GitFlow and App Store Connect.
- Acted as technical reference for **code quality, code reviews, and developer onboarding**.
- Contributed to **system design decisions** collaborating with backend and product teams.

iOS Developer

09/2021 – 06/2022

Naranja X - Bank

- Architected banking interfaces using **VIPER and programmatic UIKit**, adhering to Apple Human Interface Guidelines.
- Implemented comprehensive **testing strategy** with unit, integration (XCTest), and UI snapshot tests ensuring app reliability.
- Modernized legacy modules refactoring **MVP** → **MVVM**, improving maintainability and team productivity.
- Led **code quality initiatives** through code reviews and architectural improvements.
- Managed **CI/CD pipeline with Bitrise** and CocoaPods integration streamlining the release process.

Full Stack Developer Web

07/2021 – 09/2021

Expandit

- Built frontend modules using **React and Laravel**.
- Developed backend services with **Node.js and Laravel**.
- Managed **MySQL databases and deployment pipelines**

Wordpress Developer

04/2018 – 08/2021

Upwork - Freelancer

- Developed custom **e-commerce, e-learning, and landing websites** using WordPress and WooCommerce.
- Customized WordPress themes and optimized performance through caching, image compression, and code refactoring.
- Integrated **LATAM payment gateways (MercadoPago, PayPal)** ensuring secure transactions and smooth checkout flows.

SKILLS

Swift / iOS

Swift, SwiftUI, UIKit, Objective-C, Combine, Async/Await

iOS Frameworks

CoreData, CoreLocation, BackgroundTasks, AVFoundation, HLS, CoreMotion

Architectures

MVVM, Clean Architecture, VIPER, SOLID, Coordinators, Modular Systems, Dependency Injection

Testing

XCTest, Unit Testing

App Store & Compliance

App Store Review Guidelines, App Store Submission, Privacy Compliance, App Store Rejections Resolution

Systems

CI/CD, GitFlow, Fastlane, App Store Connect, Crash Recovery, Observability, Performance Optimization

Databases

MySQL, MongoDB, CoreData, SQLite, PostgreSQL

Accessibility

WCAG, EAA, VoiceOver, Dynamic Type, Semantic Navigation, Accessibility Testing, Accessibility Inspector, Accessibility Audit

Web

HTML, CSS, Javascript, React, Node, Wordpress

Backend

Node.js, Express.js, Laravel, NestJS

EDUCATION

Bachelor of Science in Computer Engineering

Utel

2022 – 2025

Swift Developer Program 2025

Apple Coding Academy

2025 – 2025

Swift Accessibility Program – iOS Accessibility Expert (UIKit & SwiftUI)

Apple Coding Academy

2025 – 2025

Bootcamp iOS

Bedu

2021

Bootcamp full stack MERN web & mobile

MindHub

2021

Curso UX/UI y Curso de desarrollo web

CoderHouse

2020

Electronic Technician

2017

LANGUAGES

English

B2+ (Upper Intermediate) 

Spanish

Native
